Alex Morgan

San Francisco, CA | alex.morgan@email.com | (415) 555-0192 | linkedin.com/in/alexmorgan-dev | github.com/alexmorgan

Professional Summary

Results-driven Senior Software Engineer with over 7 years of hands-on experience designing, scaling, and deploying distributed backend microservices and cloud infrastructure. Proven track record optimizing high-throughput systems, leading agile development squads, and reducing infrastructure overhead.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, Bash
Frameworks & Tools: FastAPI, Django, Flask, React, Node.js, Celery
Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, CI/CD, GitHub Actions, Linux
Databases & Messaging: PostgreSQL, Redis, MongoDB, Kafka, Elasticsearch
Practices: Microservices, REST API, System Design, Agile, TDD, Clean Code

Work Experience

Senior Backend Engineer | CloudScale Technologies | Jan 2021 – Present
• Architected high-performance REST APIs and async event consumers using FastAPI, Python, and PostgreSQL, serving over 250,000 daily active users.
• Orchestrated cloud deployment migration to AWS and Kubernetes (EKS) with Docker, reducing cloud infrastructure spend by 32% (annual savings).
• Implemented distributed caching with Redis and async background queues, slashing 95th-percentile response latency by 45%.
• Mentored 5 junior engineers and instituted CI/CD automated test pipelines using GitHub Actions, boosting code coverage to 92%.
Software Engineer | FinTech Solutions LLC | Jun 2017 – Dec 2020
• Engineered core payment transaction engines in Python and Django backed by PostgreSQL and Redis.
• Built scalable data ingestion pipelines processing 5M+ daily transactions with 99.99% uptime.
• Partnered with frontend engineers to integrate responsive interfaces built with React and TypeScript.

Education

Bachelor of Science in Computer Science | University of California, Berkeley | 2013 – 2017

Certifications

• AWS Certified Solutions Architect – Associate (2022)
• Certified Kubernetes Administrator (CKA, 2023)
